

SYNERGY ST630 PRODUCT SPECIFICATIONS

- Stainless steel construction
- Available in three finishes - Polished Steel, Synergy Blue or Matt Black
- Comes with Garnish Rail and Slow Cook Shelf
- LPG or Natural Gas - fully convertible on site
- One variable heat setting
- One burner with one on/off switch
- Fat is atomised so no need for fat tray
- Easy clean
- Accessories available: Resting Shelf, Griddle Plate, Mobile Table, Rotisserie, Wok Cooker and Divider

DESCRIPTION	INFORMATION
Power Supply	230v / 50Hz < 1kW via 13 amp socket
Electrical Power Cord	1.5m with 3 pin plug at rear
Gas	Natural or Propane Gas (inc Butane) - convertible at site
Energy Consumption	Normal use = 5.7kW Fast Heat Up for LPG and Natural Gas 7kW
Gas Connection	3/4" BSP
Burners	One burner, with simple on/off switch One variable heat control
External Dimensions	WxDxH 644 x 776 x 575mm (with slow cook shelf and garnish rail)
Area of Cooking Grid	530 x 500mm (2650cm ²)

THE RETURN ON INVESTMENT APPENDIX SYNERGY ST630 - VS - AVERAGE OF COMPETITOR GRILLS

Gas savings comparing Synergy ST630 (5.7 kW) to Average of Competitor Grills 600mm wide (15.5 kW).

Assumption: Capital Investment and Gas Consumption cost over 5 years based on Natural Gas purchased at average commercial rate of 3.5p per kW/h. The calculation is based on running for 10 hours per day and 360 days per year.

If you buy an ST630, the savings in gas alone between running the Synergy Grill and the incumbent grill will allow you to recoup your initial investment in Month 30.

If the investment decision is to buy either the Synergy Grill or the Competitor grill, the additional upfront cost of the Synergy Grill is covered in gas saving within 2 Months.

SAVINGS ON GAS ALONE, INCLUDING THE COST OF THE GRILL

A total overall cost savings in gas of £5,671.00 over a 5-year period. If gas prices rise, then the savings become even greater.
